

Clarke Inc. Reports 2018 Second Quarter Results

Halifax, Nova Scotia – August 2, 2018 – Clarke Inc. (“Clarke” or the “Company”) (TSX: CKI) today announced its results for the three and six months ended June 30, 2018.

Second Quarter Results

Net income of the Company for the three and six months ended June 30, 2018 was \$0.9 million and \$3.0 million, respectively, compared with nil and \$4.2 million for the same periods in 2017. During the three and six months ended June 30, 2018, the Company had unrealized losses on its investments of \$2.5 million and \$0.4 million, respectively, compared to losses of \$0.6 million and gains of \$3.3 million for the same periods in 2017. The Company had realized gains on its investments of \$2.2 million for the three and six months ended June 30, 2018 compared with \$0.2 million and \$0.6 million for the same periods in 2017.

Second Quarter Review and Outlook

In the second quarter of 2018, the Company’s book value per share increased by \$0.06 or 0.5%. In the first half of 2018, the Company’s book value per share increased by \$0.28 or 2.6%. The increase can be ascribed to (i) \$0.24 per Clarke common share (“Common Share”) of positive investment performance and net income, (ii) \$0.02 per Common Share resulting from an increase in the value of our pension plan surplus, and (iii) \$0.02 per Common Share as a result of repurchasing our shares. Our book value per Common Share at the end of the quarter was \$10.99 while our Common Share price was \$12.30.

Clarke renewed its normal course issuer bid and continued to repurchase Common Shares during the quarter. Together with a substantial issuer bid for its Common Shares completed in January 2018, Clarke has returned \$22.0 million to shareholders so far in 2018.

During the quarter, Clarke sold 363,560 shares of TerraVest Industries Inc. (“Terravest”) pursuant to Terravest’s substantial issuer bid and realized a gain on sale of \$2.2 million or 166%. Notwithstanding the sale, Clarke’s ownership interest in Terravest remained approximately the same at 30.9%. Clarke also purchased \$0.6 million of common shares of one of its energy basket securities.

Subsequent to the end of the second quarter, Clarke refinanced a loan in its ferry operation. The Company increased the principal amount of the loan from \$0.9 million to \$4.0 million and extended the term of the loan by four years. At this time we do not have a specific use for the additional loan proceeds.

It remains challenging to find investments that meet our investment criteria. While some investors may choose to alter their investment strategies or dilute their investment criteria at times like these, we are not going to do so. We understand the source of our returns over time and it is largely from investments made at times of market or industry dislocation or from company-specific challenges that we believe we can help rectify. Accordingly, our bias is to either retain our capital or continue returning it to shareholders until such time as more attractive opportunities present themselves.
